

Kimberly Sereduck

Carlsbad, NM | 575-200-2919 | sereduckkimberly@gmail.com | [LinkedIn](#) | [Cybersecurity Portfolio](#)

Cybersecurity professional with a strong foundation in software engineering, systems administration, and secure application development. Experienced in Python, Linux, SQL, cloud environments, and troubleshooting complex technical challenges while collaborating across cross-functional teams. Knowledgeable in network security, vulnerability assessment, log analysis, and security best practices, with a passion for protecting systems, identifying threats, and supporting secure IT operations.

RELEVANT SKILLS & EXPERTISE

Tools/Languages: Linux, Windows, Python, SQL/MySQL, Splunk, Wireshark, Tcpdump, Suricata, Bash/CLI, Git, JavaScript, TypeScript, AWS, ChatGPT

Security Practices: Information Security, Network Security, Vulnerability Assessment, Threat Analysis, Log Analysis, Security Monitoring, Incident Response, Security Frameworks & Controls, Secure Software Development

Software Platforms: AWS, Google Workspace, Slack, GitHub, React, Redux, CI/CD

Strengths: Problem Solving, Analytical Thinking, Attention to Detail, Collaboration, Technical Documentation, Communication, Adaptability, Calmness Under Pressure

CYBERSECURITY PROJECTS

TryHackMe Rooms: Utilized interactive, gamified virtual environment to enhance practical knowledge and hands-on skills:

- **Linux Fundamentals** (1, 2, & 3) and **Linux Strength Training** - Navigated directories and files, adjusted permissions, analyzed logs, explored common utilities
- **Intro to Logs** and **Log Analysis** - Identified log types, located logs, employed regular expressions (RegEx), and utilized command line and CyberChef for effective log analysis
- **Wireshark Basics** and **Wireshark 101** - Gained proficiency in packet dissection, navigation, and filtering techniques; analyzed ARP, ICMP, TCP, DNS, HTTP, and HTTPS traffic for network troubleshooting and security analysis
- **Windows Fundamentals** (1, 2, & 3) and **Windows Forensics** (1 & 2) - Acquired fundamental understanding of Windows, including file systems, user account control (UAC), control panel, system configuration, security, firewall, registry, and FAT/NTFS file systems; developed skills in accessing hives, utilizing registry explorer, and recovering files
- **Splunk Basics**, **Incident Handling with Splunk**, and **Splunk** (2 & 3) - Developed skills in navigating Splunk; conducting incident handling using Splunk; participated in the Boss of the SOC investigation for security analysis

PROFESSIONAL EXPERIENCE

Senior Software Engineer • Mozilla Corporation, Remote

03/2023 - 06/2023

- Pioneered advanced performance regression tool for Firefox, elevating browser efficiency. Led cross-functional team, fostering innovation from concept to production.
- Orchestrated hiring and onboarding initiatives, bolstering team capabilities. Mentored new hires across diverse roles, cultivating a dynamic work environment.
- Devised strategic sprint plans spanning 3-6 months, aligning team efforts with long-term organizational goals. Championed forward-thinking approaches.

Performance Test Engineer • Mozilla Corporation, Remote

01/2020 - 03/2023

- Mentored new hires, fostering team growth. Regularly improved documentation, ensuring knowledge transfer and streamlined onboarding processes for future team members.
- Authored impactful blog posts on page load tests and mitmproxy work, showcasing technical expertise and contributing to Mozilla's thought leadership in performance testing.
- Optimized testing tools for realistic page load results, enhancing efficiency and accuracy. Conducted in-depth performance analyses, driving data-driven improvements.

Software Engineer • Mozilla Corporation, Remote

06/2019 - 01/2020

- Engineered image recognition techniques in test automation, revolutionizing functionality validation processes. Spearheaded initiatives to address test coverage shortfalls.
- Streamlined testing processes through image recognition implementation, significantly improving efficiency. Tackled test instability issues, delivering robust solutions.
- Meticulously analyzed test coverage, identifying critical gaps. Crafted comprehensive solutions to enhance test stability and minimize flakiness issues.

Interoperability Test Engineer • Mozilla Corporation, Remote

12/2018 - 06/2019

- Revitalized legacy crash detection system for Firefox, adapting it to identify third-party software issues. Modernized 12-year-old codebase, enhancing system reliability.
- Conducted thorough analysis of an outdated project, identifying key components for repurposing. Implemented strategic improvements to align with the current software ecosystem.
- Transformed a dormant project into a valuable tool for third-party crash detection. Significantly improved Firefox stability through targeted software conflict resolution.

Accessibility Test Engineer • Mozilla Corporation, Remote

05/2018 - 12/2018

- Established comprehensive accessibility guidelines, revolutionizing design and development practices across Mozilla projects.
- Fostered cross-functional partnerships to expand accessibility testing, enhancing inclusivity across a broader range of Mozilla initiatives.
- Spearheaded accessibility enhancements for Mozilla's Lockbox project, significantly improving user experience for diverse audiences.

Test Engineer (Contract) • Mozilla Corporation, Remote

11/2017 - 05/2018

- Transitioned from contract to full-time engineer role ahead of schedule, demonstrating exceptional performance and rapid skill acquisition. Delivered impactful company-wide presentation on accessibility findings.
- Facilitated cross-functional collaboration to integrate accessibility testing into core development processes. Shared insights through company-wide lightning talk, promoting knowledge transfer.
- Independently refined accessibility testing packages, ensuring comprehensive coverage and robust functionality. Orchestrated seamless PyPi deployments, maintaining high code quality standards.

Test Engineering Intern • Mozilla Corporation, Remote

05/2017 - 08/2017

- Founded novel testing methodologies, leveraging cutting-edge accessibility tools to fortify Mozilla's commitment to inclusive web experiences.
- Analyzed and documented web accessibility compliance, ensuring Mozilla's digital products met stringent industry standards.
- Engineered cutting-edge pytest modules integrating Selenium with web accessibility API, enhancing automated testing for Mozilla's digital platforms in CI/CD pipelines.

Full Stack Software Engineer • A Code Above, Durango, CO

09/2013 - 05/2017

- Engineered robust full-stack solutions for diverse small businesses, leveraging cutting-edge technologies to deliver tailored, high-performance web applications.
- Optimized VPS configurations for client website hosting, ensuring maximum uptime, security, and performance through meticulous system analysis and proactive maintenance.
- Improved development processes, significantly reducing project timelines and enhancing client satisfaction through efficient coding practices and agile methodologies.

EDUCATION, CERTIFICATES, & CERTIFICATIONS

Google Cybersecurity Professional Certificate • Merit America, Virtual

10/2026

- Cultivated holistic understanding of cybersecurity's critical role in organizational security, privacy, and success, including how to systematically identify and mitigate risks, threats, and vulnerabilities
- Gained practical experience with **Linux, SQL, Python** and utilized **SIEM tools, IDS, and network protocol analyzers** for proactive threat management
- Applied knowledge to real-world scenarios, developing skills in proactive **threat detection** and **response** through completion of dynamic hands-on projects, including: conducting a simulated **security audit**, responding to a **cyber incident**, analyzing **vulnerable systems**, and completing an **incident handler's journal**

Computer Engineering and Art (Coursework Completed) • University of Mississippi, Oxford, MS

05/2010

- 55 credits completed; Relevant coursework includes: Unified Calculus & Analytic Geometry I & II, Physics for Science & Engineering I & II, Computer Science in Java I, II & III, Digital Logic, Logic: Critical Thinking, Intro to Operating Systems, Programming in C++
